BNI - Business Network International
3540 Commerce Court, Unit 3

Attention: Leading Edge Chapter

To Whom It May Concern:

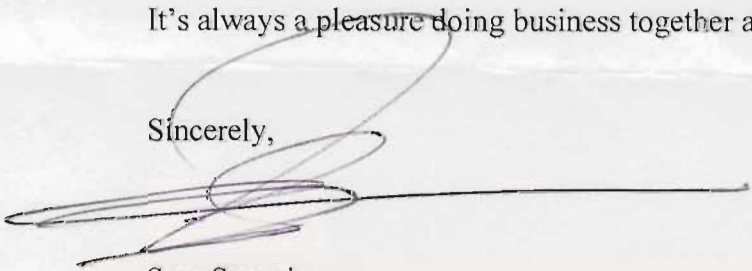

I have been a member of BNI - Leading Edge Chapter for about 3 years, have exchanged thousands of dollars of business, with many fellow members, and have also made many great friendships ... We're definitely a close-knit group who support each other.

BNI relationships also extend beyond our own chapters. For instance, several months ago, I visited another chapter and, a few weeks later, received a referral from one of the members. A couple of weeks later, I received another referral from that same chapter and, just this week, that member referred his sister-in-law, who was involved in an auto collision.

I truly appreciate all the support received by my fellow members, past members & other chapter members ... BNI really works, especially when we live by the BNI philosophy, 'Givers Gain'!

It's always a pleasure doing business together and supporting each other at BNI!

Sincerely,

We want to thank you very much for the promotional Christmas gifts your company help us to design for our customers.

Our clients were very pleased with the wooden pen and boxes, the feedback has been great: beautiful, elegant, classy, but the most important thing is that they have our name and our phone number and on their desk all year around.

Thanks again

Dear Riaz,

I want to take a moment to say a big thank you for the great work you've done for me over the last few years, and continue to do.

It's truly amazing that you can meet even the tightest of deadlines without sacrificing quality. There have been many times when I've sent files over to you at very short notice, sometimes less than five days, yet you always seem to deliver.

Without fail, whenever I send my clients to your shop they come back truly impressed with the professionalism and attention to detail shown by you and your staff.

My job as a freelance writer and editor is to help my clients generate new business and increase sales. For printed projects, whether they're business cards or corporate brochures, this would not be possible without being able to partner with a commercial printer I can trust.

Several times when I've completed any writing projects that include artwork, you've provided valuable advice and guidance on how best to place and manage those files in my documents to give an even more professional appearance for my clients. That's excellent customer service!

I will certainly continue to use your printing services and feel safe in the knowledge that any clients I send to your shop will receive first-class service and competitive prices.

You truly are the first and last step in printing!

Sincerely,
