"I work with others every day trying to help them to define direction in life and achieve their goals. There are two things I have learned in the past five years working with financial advisors. One is that it is an amazing career to grow and really make a difference in the lives of others. Second is who you work with. I have known Mike Woods and worked with him closely for the past three years and can say that he may be one of the most generous, intelligent and energetic people I have known. It's rare to see someone in business consistently put the welfare of others ahead of their own. If you want a career that has unlimited potential and can really make a difference. Consider being a financial advisor. If you want to work with someone who will truly care about you and your career, call Mike Woods."
